WHAT IS CONSTRUCTION CITY?

Construction City is an annual, hands-on learning event held in November for fourth- and fifth-grade Scouts, hosted by the Erie Shores Council, Scouting America.

Scouts experience a simplified version of a real construction project — from permitting and planning to building, testing, and controlled demolition — helping build confidence and critical thinking skills.

The event features two exciting divisions: the **City Division**, where Scouts design and construct cardboard buildings on an 8-foot by 8-foot plot, and the **Bridge Division**, where older Scouts build a 12-foot bridge.

Together, these experiences encourage creativity, collaboration, and problem-solving while creating a memorable, hands-on educational experience.
